Message from the Chairperson, Victorian Multicultural Commission

The cultural celebrations that take place in Victoria are wonderful examples of the success of our multicultural state. The African Music and Cultural Festival (AMCF) is one of those celebrations that brings the community together with colour, music and purpose.

Your contribution to Victoria is invaluable and is a great example of the power of connection through food, music, fashion and our shared lived experiences. This connection is at the heart of respect, equality, partnership and community.

The last few years have not been easy for multicultural communities, but we've been able to emerge stronger because of our belief in a future for this state where we can all share and celebrate our culture and traditions with each other.

On behalf of the Victorian Multicultural Commission, I congratulate and thank you for this important work and we look forward to another wonderful celebration.

Kind regards

Vivienne Nguyen
Chairperson, Victorian Multicultural Commission
